SUMMARY

Full-Stack .NET Developer with 2 years of hands-on experience in designing, developing, and maintaining web applications using C#, ASP.NET Core, React.js, and SQL Server. Strong experience across the full software development lifecycle, with a focus on building scalable, reliable, and maintainable solutions. Strong problem-solving skills, clear communication, and a continuous learning mindset. Passionate about writing clean, efficient code and collaborating with teams to deliver high-quality digital products.

EXPERIENCE

Software Developer
Alphonsol Pvt Ltd.

August 2024 – Present
Thane, Mumbai

- Design, development, and maintenance of multiple web applications across insurance and healthcare domains using **C#, ASP.NET Core MVC, Web API, ReactJs, VB.NET and SQL Server.**
- Involved in end-to-end development, backend API design, system integrations, automation workflows, and feature enhancements. Collaborated with cross-functional teams to deliver scalable, reliable, and production-ready solutions.

PROJECTS

Insurance Systems Integration & API Management
Technologies: ASP.NET Core WebAPI , SQL Server

- Developed and exposed internal APIs to Insurance Companies (ICs) for seamless data exchange of claims, policies, and payments.
- Integrated and consumed IC APIs within the TPA system to process claims and coordinate with TPA workflows.
- Handled high-volume claim data transactions, ensuring accurate validation and secure communication.
- Provided production support and maintained stable API performance with SLA compliance.

Bill Entry Automation
Technologies : C#, ASP .NET Core Web API , MS SQL , VB .NET

- Worked Closely With Machine Learning Team & Developed a Bill Entry Automation system using OCR processing to extract invoice data automatically.
- Built Web APIs to process, validate, and store OCR-extracted data into MS SQL Server Converting JSON To XML For Processing.
- Implemented a scheduler service to push Claims With Document To OCR System For Processing
- Integrated Extracted Bill Details In Legacy Desktop System Ensuring Proper IRDA Validations & TPA Operations.

LIMS – Laboratory Information Management System
Technologies: ASP.NET Core WebAPI , MS SQL , React JS , Typescript , Redux-Toolkit

- Architected and led development of a multi-tenant LIMS supporting configurable lab workflows and dynamic role-based operations. automated stage-driven workflow engine with real-time role-based notifications.
- Implemented secure JWT authentication with hybrid RBAC + UBAC authorization for fine-grained, lab-level access control.
- Designed a dynamic JSON-driven test execution engine for the Analyst module, rendering complex test definitions extracted from FSSAI regulatory PDFs.

TECHNICAL SKILLS

Languages: C#, Javascript , Typescript , SQL
Backend: ASP.NET Core Web API, [Node.Js](#), [Express.Js](#), MVC, RESTful APIs, LINQ, Asynchronous Programming
Database: SQL Server, MySQL, Stored Procedures, Query Optimization
Frontend: React.js, REST API Integration, Redux-Toolkit, CSS
DevOps & Tools: Git, GitHub, Docker, Postman, IIS Deployment

EDUCATION

Metropolitan Institute of Technology & Management
Bachelor of Computer Engineering, CGPA: 7

June 2021 – May 2024

Government Polytechnic Malvan
Diploma In Computer Engineering, Percentage: 87.89

June 2018 – May 2021
